

# Muskwa-Kechika Expedition and Camps 2018

## General Information

The Muskwa-Kechika Management Area (M-KMA) encompasses a vast wilderness in BC's northern Rocky Mountains. Teeming with wildlife, it is a vestige of the continental wilderness that once existed. Wayne Sawchuk has been leading expeditions into the remotest

regions of the MK for decades as part of an effort to protect this magnificent area. You have an opportunity to become one of seven participants on each expedition, where you will experience the ride of your life- a rewarding and full-on challenge for the mind and body.

### Trip Options:

In 2018 we will be offering the following options for exploring the Northern Rockies.

- 1) Horseback Expeditions** Life on the trail is rigorous, and a high level of fitness is required. Usually, the packstring will be on the trail for two or three days, followed by a camp day. Folks will bring their own tents, sleeping bags etc, and on a 12 day trip with 6 people for instance, each person will be responsible for supplying and preparing 2 suppers for the group, as well as their own breakfast and lunch.
- 2) The Mayfield Base Camp** includes all food, lodging, as well as horse, sauna, and canoe use. Cook supplied – your job is to enjoy!

### A note about the Expeditions

Muskwa-Kechika Adventures specializes in unique, experiential and full-on wilderness horseback experiences. This is the real deal! Do not expect a typical “tourist” trip. Instead, you will become an expedition member. Participants share in all camp and trail activities such as saddling, fire-lighting, cooking, and horse wrangling. Horse travel in the wilderness is rigorous, and folks must be able to hike up and down steep trails, mount and dismount repeatedly, and assist with camp and horse activities according to their abilities. Experience with horses is useful, but not necessary. Fitness, however, is mandatory.

## Flights:

The cost of your scheduled flights in and out of the mountains are included in the fee and are arranged by MK Adventures. All floatplane flights depart/return from Liard Air's facilities located at Northern Rockies Lodge at Muncho Lake (245 kms west of Fort Nelson, BC) The wheeled bushplane flight to and from the head of the Prophet River leaves from the Villers hanger at the Fort Nelson Airport. Unscheduled floatplane service and/or wheel plane flights out of the M-K can also be made available, dependant on conditions (an extra charge will apply for this service).

## Communication:

Muskwa-Kechika Adventures carries a satellite phone and satellite email system for use in emergencies.

## Liability Insurance:

Muskwa-Kechika Adventures carries liability insurance, as required by the conditions of the Park Use Permit. Contact Wayne Sawchuk if you would like further details on this.

## Travel Costs to Muncho Lake:

Travel costs to reach Muncho Lake are the responsibility of the participant. Air service to Fort Nelson is provided by Central Mountain Air. You can, of course, travel by personal vehicle. Participants have flown to Whitehorse, then rented or bussed south to Muncho Lake (712 kms)- you may wish to check this option. MK Adventures can often help with travel to Muncho Lake etc, just be in touch.

## Accommodation at Muncho Lake:

The night before the floatplane departures, participants can stay at Muncho Lake either in Northern Rockies Lodge or in a tent in the provincial campsite. Hosts at Northern Rockies Lodge, where the floatplanes will depart, are Urs and Marianne Schildknecht, who also operate Liard Air service. For rates and booking at Northern Rockies Lodge, phone 1-800-663-5269.

## What to Bring:

First rule – be light. For details, see our Gear List below.

MK Adventures will supply all cooking equipment, dishes and dish soap etc, camp shelter, horses and horse gear. Don't bring extra dishes as you won't need them. If you are a coffee drinker, bring 1 pound per week, ground for coffee press (supplied). Clothing and other gear can be packed in light stuff sacks.

A note about weather - it can do anything in the Northern Rockies! Come prepared for hot or cold conditions. Don't forget those rubber boots!

Be sure to bring binoculars and camera if you have them. Bugs aren't usually too bad in the Northern Rockies, but do bring some bug dope if you normally use it.

## Food:

Expedition participants will bring and prepare their own lunches and breakfasts, as well as two suppers for the group on a normal two-week trip. Watch for email updates to find out if your trip is "normal!" Rice, pasta, potatoes, and dried foods that keep are good for meals later in the trip, while some fresh food (ie meat) is OK for your first meal or two. In general, go light, as you would with heavy backpacking or canoe trekking. Please inform us if you have any food allergies or sensitivities, or prefer a vegetarian option etc.

Best to pack your food in cardboard boxes as it will be transferred to horse panniers when you get to camp.
